## PLEASE READ: Conditions of Storage

- Storage charges are due when the boat is hauled. Bills are rendered monthly for all repair work in progress and are due within thirty days. All outstanding charges must be paid before the boat is launched or leaves the yard.
- No outside contractors or paid workers are permitted to work on your boat unless prior approval is given by Gratitude Marina and workman's compensation and liability insurance certificates for the workers are on file at Gratitude Marina. For specific rules pertaining to outside contractors, contact the marina office.
- Boats and gear are stored at owner's risk. Gratitude Marina is not responsible for loss or damage by fire, theft, vandalism, storm or other natural causes.
- All persons entering the yard storage areas agree to abide by all the rules of the yard as stated below.
- Unless prior arrangements are made with Gratitude Marina, boats in dry storage after May 31 will be charged summer yard storage and blocking fees on a prorated basis.
- Vessels not ready for launch in the spring will be moved at the owner's expense, unless prior arrangements have been made with the service manager.

## Rules of the Yard

- Tampering with or moving jack stands is prohibited by anyone but yard staff. Lines from covers, tarps, etc. are not to be tied to jack stands.
- Waste oil, fuel, and solvents are to be disposed of properly and under no condition are to be left in yard, dumpsters, or designated material storage areas. Disposal of such materials must be done according to EPA standards and with permission, proper logging and supervision by the service manager. Fees for disposal of hazardous materials will be paid by the responsible party.
- Due to EPA guidelines, removal of bottom and topside paints must be done using dustless sanders and related materials, which can be rented from the marina. Drop cloths must be used.
- Sandblasting or use of compressed air painters is prohibited in the storage yard by anyone except authorized professionals.
- Owners are responsible for damage to other vessels in the yard as a result of the aforementioned repair and maintenance activities, i.e. paint, dust, solvents, etc.
- Welding and open flames including blowtorches, burning torches and grills of any kind are prohibited in the storage yard.

**DUE TO INCREASED CONCERN FOR OUR ENVIRONMENT** and increased regulation by state, federal, and local authorities, it has become necessary to closely police repair and maintenance activity at our facilities. We are under especially close scrutiny because of the proximity of marinas and boatyards to the water and tidal wetlands. Our policies and restrictions are in no way designed to restrict trade or inconvenience our customers. They are simply to be in compliance with imposed regulations and concern for our precious resources. Thank you for your consideration and cooperation. Should you have any questions regarding acceptable practices or wish to report any violations, please contact the marina office.

### THANK YOU FOR YOUR CONTINUED PATRONAGE
